## Local Man Receives National Recognition

Sighting his courage and commitment in dealing with a debilitating illness, the **National Lymphedema Network** has recognized Valley resident **Robert King** as the local recipient of the 2007 Lymphedema "D" Day Award. He received this honor at a special reception on **National Lymphedema Day, Tuesday March 6th**.

**TuDor Physical Therapy Centers** nominated Mr. King for this award. As a patient of TuDor, he began radical treatment for this disease in November. He had been at risk of losing his leg on several occasions but with the support of the TuDor therapists and his commitment to at-home care, Mr. King now has the condition under control.

TuDor therapist Darris Binion was thrilled with Mr. King's progress, "In three short months, through his consistency in attending his appointments and his determination to self-manage at home, his lymphedema improved dramatically, allowing him to resume most of his daily activities. We are very pleased he is being recognized for his efforts".

**TuDor Physical Therapy Centers** have five locations throughout the Mahoning Valley. They offer extensive services to the community, encompassing all speciality areas of physical and occupational and home therapy.
